EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

- In line 5 of specification, add the phrase –09/850,394 now United States Patent Number 6,599,957— after “patent application”.

Response to Arguments

2. Applicant's arguments, filed 12/8/03, with respect to claims 7-11 have been fully considered and are persuasive. The rejection of claims 7, and 9-11 has been withdrawn. Claim 8 was cancelled and re-written into independent claim 7. The Yoneda reference teaches a slab waveguide with a irradiated photosensitive material in an etched groove. Applicant has amended the claims to a waveguide device comprising a pair of optical fiber waveguides with a non-planar waveguide in a groove between them. Yoneda discloses a method of irradiating light to create a planar waveguide from the surface rather than from the actual fibers. Therefore claim 7 is allowed. Claims 9-12 are allowed by virtue of dependency.

Allowable Subject Matter

3. This application is in condition for allowance except for the presence of claims 1-6 that are withdrawn by applicant. Accordingly, claims 1-6 have been cancelled.

Drawings

4. The drawings are objected to because they contain handwritten labels and text. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
